ground and air operations and the commanders on the battlefield. The Department of Defense (DoD) recognizes that Corrosion Prevention and Control (CPC) planning  
 Army Corrosion Prevention and Control Program: What is the ...  
 Corrosion Prevention & Control (CPC) Management eCourse. CPC planning is the most efficient method for effectively addressing and reducing the impact of corrosion at every stage of a product or facility's lifecycle.  
 Corrosion Prevention and Control Management eCourse - NACE  
 The corrosion prevention and control program contained in this proposal originates, in part, from the recommendations following the

investigations of the Aloha Boeing 737-200 accident on April 28, 1988 when 18 feet of upper fuselage separated from the airplane in flight. Federal Register :: Corrosion Prevention and Control Program Corrosion assessments are completed, at a minimum, annually to determine the level of corrective actions necessary to return the equipment back to like new or functional condition. The following corrosion category codes (Reference Table 1-1) are used in identifying corrosion prevention and control program requirements: Table 1-1. Army National Guard Corrosion Prevention and Control Program DoD Corrosion Office: The Office of Corrosion Policy and Oversight is responsible for addressing the needs and meeting the goals of the DoD's Corrosion Prevention and Mitigation Program. DoD Corrosion Office - Reference Library; MIL-HDBK-735 - Material Deterioration Prevention and Control Guide for Army Materiel Metals; Corrosion is a ... Corrosion Prevention & Control - AcqNotes 10-5-2: Document corrosion prevention and control in program documentation: Identify requirements for corrosion prevention and control in accordance with current guidance. Identify system operational use requirements and related design features impacted by and having an impact on corrosion prevention and control. Corrosion Prevention and Control - dau.edu corrosion prevention and control. DoD Directive 5000.1, The Defense Acquisition System, states that corrosion prevention control and mitigation will be considered during life-cycle cost trade-offs. Operational capabilities such as readiness, reliability, sustainability, safety, etc. are already considered critical for an effective system and are
