*Antiques and Collectibles Price Guide, 1998* Antique Trader  
 America's antiques experts Ralph and Terry Kovel present the 27th edition of the best-selling price guide in America, with this year's prices for the antiques and collectibles most sought by today's collectors. Includes the most comprehensive cross-referenced index of its kind.  
*Antique Trader Antiques & Collectibles 2003 Price Guide* Complete Carl Barks Disney Lib  
 Visually appealing, conceptually startling, and intellectually engaging—these phrases aptly describe the art of Liliana Porter. Florencia Bazzano-Nelson's study focuses on the principal theme in the Argentine-born artist's work since the 1970s: her

playful but subversive dismantling of the limits that separate everyday reality from the world of illusion and simulacra. Over the years, Porter's own evolving interest in perception lead the author to explore a series of interconnected and timely issues in her artistic production, such as the representative function of art, the structural links between art and language, and the witty re-signification of the art-historical images and mass-produced kitsch figurines she has so often featured in her art. Strongly founded in critical theory, Bazzano-Nelson's approach considers Porter's art as the site of conceptually exciting dialogues with Jorge Luis Borges, Ren?agritte, Michel Foucault, and Jean Baudrillard. Her carefully crafted interdisciplinary analysis not only combines art-historical, literary, and theoretical perspectives but also

addresses the artist's work in different media, such as printmaking, conceptual art, photography, and film.

 To sort out who's who and what's what in the enchanting, vexing world of Barbies(R) and Ninja Turtles(R), Tinkertoys(R) and teddy bears, is to begin to see what's become of childhood in America. It is this changing world, and what it unveils about our values, that Gary Cross explores in *Kids' Stuff*, a revealing look into the meaning of American toys through this century. Early in the 1900s toys reflected parents' ideas about children and their futures. Erector sets introduced boys to a

realm of business and technology, while baby dolls anticipated motherhood and building blocks honed the fine motor skills of the youngest children. Kids' Stuff chronicles the transformation that occurred as the interests and intentions of parents, children, and the toy industry gradually diverged--starting in the 1930s when toymakers, marketing playthings inspired by popular favorites like Shirley Temple and Buck Rogers, began to appeal directly to the young. TV advertising, blockbuster films like Star Wars(R), and Saturday morning cartoons exploited their youthful audience in new and audacious ways. Meanwhile, powerful social and economic forces were transforming the nature of play in American society. Cross offers a richly textured account of a culture in which erector sets and baby dolls are no longer alone in preparing children for the future, and in which the toys that now crowd the racks are as perplexing for parents as they are beguiling for little boys and girls. Whether we want our children to be high achievers in a competitive world or playful and free from the worries of adult life, the toy store confronts us with many choices. What does the endless array of action figures and fashion dolls mean? Are children--or parents--the dupes of the film, television, and toy industries, with their latest fads and fantasies? What does this say about our time, and what does it bode for our future? Tapping a vein of rich cultural history, Kids' Stuff exposes the serious business behind a century of playthings.

Walt Disney's Donald Duck Andrews McMeel Publishing  
Describes the life of the Walt Disney star, Donald Duck.

The Antique Trader Lulu.com  
In all the seasons of the year it seems Donald Duck works hard and chipmunks Chip and Dale just have fun.

*Kovels' Antiques and Collectibles Price List 2002* Heritage Capital Corporation

A favorite of toy collectors worldwide, the book makes informative and entertaining reading for non-collectors as well. Photos.

*Classic Toys and the Playmakers Who Created Them* Heritage Capital Corporation

This book examines the scope and nature of Donald Duck and his family's popularity in Germany, in contrast to the diminished role they play in America. This is achieved through examination of the respective fan communities, business practices, and universality of the characters. This work locates and understands the aspects of translation and adaptation that inform the spread of culture that have as yet been underexplored in the context of comic books. It represents a large-scale attempt to incorporate adaptation and translation studies into comics studies, through a lens of fan studies (used to examine both the American and German fan communities, as well as the work of Don Rosa). This work builds on the efforts of other scholars, including Janet Wasko and Illaria Meloni, while expanding the historical understanding of what might be the worlds best-selling comics. Peter Cullen Bryan is Lecturer at Pennsylvania State University, USA. His areas of study include American Studies, Intercultural Communications, and 21st Century American culture, emphasizing comic art and fan communities. His research has appeared in the Journal of Fandom Studies, The Journal of American Culture, and Popular Culture Studies Journal. He serves on the boards of the Mid-Atlantic Popular Culture Association and the Popular Culture Association, as well as Secretary for the Intercultural Communication section of the International Communication Association.

Tracing developments in toy making and marketing across the evolving landscape of the 20th century, this encyclopedia is a comprehensive reference guide to America's most popular playthings and the culture to which they belong. • Nearly 200 alphabetically arranged entries document the historical and cultural significance of toys • Cross-references and a listing of additional resources accompany each entry and encourage further investigation • Photographs and illustrations gathered from public and private collections across the country depict the entire century of America at play • A guide to related topics identifies the entries according to broader categories such as toys, designers, companies, museums, events, and organizations • A resource guide provides

information for contacting American toy companies, accessing national toy museums, and attending annual toy festivals, and offers many avenues for pursuing further information about toys and American culture including books, scholarly journals, audio recordings, films, and websites

The Dream of Three Lifetimes Golden Books

Selected by The New York Times Book Review as a Notable Book of the Year A revelatory tale of science, adventure, and modern myth. When the writer Donovan Hohn heard of the mysterious loss of thousands of bath toys at sea, he figured he would interview a few oceanographers, talk to a few beachcombers, and read up on Arctic science and geography. But questions can be like ocean currents:

wade in too far, and they carry you away. Hohn's accidental odyssey pulls him into the secretive world of shipping conglomerates, the daring work of Arctic researchers, the lunatic risks of maverick sailors, and the shadowy world of Chinese toy factories. Moby-Duck is a journey into the heart of the sea and an adventure through science, myth, the global economy, and some of the worst weather imaginable. With each new discovery, Hohn learns of another loose thread, and with each successive chase, he comes closer to understanding where his castaway quarry comes from and where it goes. In the grand tradition of Tony Horwitz and David Quammen, Moby-Duck is a compulsively readable narrative of whimsy and curiosity.
