Management of Off-highway Plant and Equipment provides a working knowledge of plant management for today's engineers, managers and students, and explains concisely and clearly the factors to be considered during investment in, and management of, construction equipment. It compares the cost of leasing with those of purchase, discusses ways of achieving optimum economic usage of plant, and covers issues of health and safety, licensing and the logistics of maintenance.

Ron Fitch was born in 1910 into a railway family. He began his career as a 16-year-old engineering cadet and completed it, 46 years later, having worked at various times for two state railways and the Commonwealth, as Commissioner of South Australian Railways. In this book Fitch gives a vivid account not only of his career but of the camaraderie of the greater railway community. This is a book for all train enthusiasts, celebrating the men, the machinery, the toil and the technology, that opened up a vast and sparsely populated continent.

Studienarbeit aus dem Jahr 2010 im Fachbereich BWL - Unternehmensführung, Management, Organisation, FOM Essen, Hochschule für Oekonomie & Management gemeinnützige GmbH, Hochschulleitung Essen früher Fachhochschule, Veranstaltung: Grundlagen Projektmanagement,

Sprache: Deutsch, Abstract: 1. Einleitung In der Zwischenzeit gibt es eine Menge an Literatur über das Thema Management. Das Thema Projektmanagement wird dabei nur selten im Detail betrachtet. Gemeinsam ist beiden Begriffen eine große Komplexität, die bereits in Ihren Definitionen zum Ausdruck kommt, die im Anschluss genauer beschrieben werden. Vielleicht ist diese Komplexität Grund dafür, dass es bis heute keinen Studiengang bzw. keine Ausbildung zum Manager bzw. Projektmanager gibt. Im Studiengang Bachelor of Science wird zumindest auf die Grundelemente des Projektmanagements eingegangen. Jedoch gerade für Projekte und deren Management scheint es nötig zu sein, das Thema genauer zu erläutern, da viele Projekte nicht optimal verlaufen. Einige Gründe hierfür sind: □ unklare Anforderungen und Ziele □ unzureichende Planung der Ressourcen □ falsche Abschätzung der Dauer und Kosten □ mangelnde Qualifikation und Projekterfahrung □ schlechte Kommunikation zwischen den beteiligten Parteien □ mangelnde Koordination der verfügbaren Ressourcen und Aktivitäten □ fehlende Kontrolle des Projektverlaufs □ fehlende Qualitätskontrolle Ein erfolgreiches Projekt zeichnet sich durch das Erreichen zweier wesentlicher Ziele aus: (1) □ die definierten Projektziele wurden erreicht □ die festgelegten Ressourcen hinsichtlich Budget, Kapazitäten, Zeit und Material wurden nicht überschritten Eine Vielzahl der Projekte scheitert am zweiten Ziel. Diese Hausarbeit beschäftigt sich mit den Hauptfunktionen des Projektmanagements. Ziel ist es, diese aufzuzeigen und deren Zusammenhänge darzustellen. Im ersten Abschnitt werden zunächst die grundlegenden Begriffe Projekt, Management und Projektmanagement erläutert, um eine Grundlage für d

Regenerating British Columbia's Forests will assist those responsible for planning reforestation projects to reach informed decisions and will challenge them to consider primarily the biological factors basic to reforestation success rather than short-term costs and production technology. Although its main audience is practising foresters and forestry students of British Columbia, the text will be of considerable interest to foresters in other parts of Canada, the United States, and Europe who manage reforestation.

For courses in Construction Management, Construction Contract Administration, and Construction Inspection. Drawing on the author's extensive experience in construction engineering, administration, and education, this text/reference addresses each of the principal contract administration duties in logical order—from the hands-on viewpoint of a resident engineer on a construction project. It specifically addresses the responsibility and authority of the Resident Project Representative, unlike other texts which focus on the project manager. The text takes a project team approach for improved job efficiency, outlining a construction team operation in which the administrator delegates to the greatest possible extent all those contract administration functions that can be more effectively done in the field.

Set in the aftermath of the “riveting...action-packed” (Joan Lunden, New York Times bestselling author) Oath of Honor and the discovery of a deadly global conspiracy, the president requests Logan West to form a covert task force with the mission to dismantle a nameless enemy in this “fast, hard-hitting, and impossible to put down” (The Real Book Spy) thriller. With the full resources of the Justice Department, Intelligence Community, and the military (not to mention presidential pardons pre-signed), Logan must battle a secret organization with the connections and funding to rival many first-world nations. The sinister goal of this organization—to pit the United States against China in a bid to dismantle the world’s security and economy. Back on US soil, Logan and his task force pursue the elusive foe from the woods of northern Virginia to the banks of the Chesapeake Bay, from suburban Maryland across the urban sprawl of Washington DC. The stakes have never been higher for Logan or America itself... “Suspenseful, inventive, and relentless, Field of Valor unfolds at lightning pace” (Meg Gardiner, New York Times bestselling author) and is perfect for fans of the pulse-pounding works of Brad Thor, Vince Flynn, and Jack Carr.

Field of Valor

Larry learned early on that a man's hand-shake is his bond. To this day he retains that bond as well as one of honesty and compassion for others in all his dealings. Most men are honest, but at times ambition or greed can influence the best of intentions. Although Larry had a humble beginning, he rose above it to become a very successful man and was able to change dysfunctional living practices with his own family. He instilled love, honesty and respect in their upbringing all the while exhibiting patience and understanding. His greatest love is for God, his family, friends and nature. That love has been an inspiration in the writing of both Poetic Expressions and now his autobiography. Larry also managed to take time out of his busy schedule to work with other kids as noted by all his years of coaching baseball and never missing any event that they were involved in, even if he had to leave work early. His love of nature is unequalled. Larry's descriptions have the ability to take you there. Sometimes that love of nature has resulted in butting heads with preservationists as to timberland and renewable resources. This is especially so with them filing lawsuits to stop burnt and diseased timber harvesting. A sense of humor didn't pass him by either as noted in his autobiography again and again, as he says, a man without mirth is akin to a horse without hooves. For both must tread lightly upon the rocky roads of life. To sum it up Larry quotes an unknown author, the rigors of senior years may prove to be very challenging. Have we put up a good fight throughout or is it the confusion of genes and how they are inherited to blame?
